INTERNSHIPS

Frontend Developer Intern

June 2024 – Aug 2024

JNS Systech Pvt Ltd

New Delhi

- Built a scalable product listing platform using **JavaScript, HTML5, CSS** supporting **500+ products**.
- Optimized DOM rendering, reducing page load time by **30%**.
- Developed responsive UI components, reducing layout bugs by **40%**.
- Increased user engagement by **22%** through interactive animations and transitions.

PROJECTS

Object Detection System | Raspberry Pi 4, YOLOv8, OpenCV, Python, LiDAR

- Developed real-time edge AI system achieving **20 FPS (480p@30FPS)**.
- Improved inference speed by **35%** via quantization and pipeline optimization (**80–92% accuracy**).
- Integrated ToF LiDAR with **<1% distance error** for depth-aware localization.

Movie Recommendation System | Python, Scikit-learn, Pandas, NumPy

- Built recommendation engine on **5,000+ movies** using TF-IDF and collaborative filtering.
- Improved recommendation precision by **18%**.
- Reduced cold-start latency by **30%** using optimized cosine similarity computation.

Book Recommender | Python, Scikit-learn, K-Means

- Developed clustering-based recommender on **8,000+ books** with **85% genre alignment**.
- Generated **6–10 relevant recommendations per query**.
- Reduced user search time by **40%** through optimized indexing.

SKILLS

Languages: Python, C++, JavaScript, SQL (PostgreSQL), HTML/CSS

Frameworks/Libraries: React, Scikit-learn, Pandas, NumPy, OpenCV

Tools: Git, Linux, AWS, Jupyter, VS Code, MATLAB

Hardware: Arduino, Raspberry Pi

CERTIFICATIONS

Linux Certification	IIT Bombay	2024
Python Programming Certification	TechStack Academy	2024
RDBMS (PostgreSQL) Certification	IIT Bombay	2025
Arduino Certification	IIT Bombay	2025

EDUCATION

B.Tech, Electronics & Communication Engineering | CGPA: 7.6/10 2022 – 2026
Bhagwan Parshuram Institute of Technology, New Delhi

CBSE | Class XII: 82% | Class X: 92% 2018 – 2021
Vidya Bharati School, New Delhi
